**"We in the engineering industry can be very proud of the contributions we make that advance the quality of the built environment. Everyday as we work in our industry, in our state, in our country, and in fact, in the world."**

Orrin B. MacMurray, P.E., FACEC, Chairman-elect  
American Council of Engineering Companies  
C&S Engineers, Inc.

# ACEC *New York*

*American Council of Engineering Companies of New York*

Welcome to ACEC New York's Engineering Excellence Awards (EEA) Gala Event. EEA recognizes and celebrates engineering achievements that demonstrate the highest degree of ingenuity from our member firms. Boasting a rich 40-year history, the program has been called the Academy Awards of the consulting engineering world.

Each year a distinguished panel of judges selects the finest engineering designs, plans and studies by New York State consulting engineering firms, based on criteria such as uniqueness and originality; technical value to the engineering profession; social and economic considerations; complexity, and success in meeting client goals. The result-- 24 Diamond Awards, the highest award given at the state level, and 83 Platinum, Gold and Silver Awards.

Tonight we congratulate and honor the recipients of these awards!

Anchor installation in Gilboa Dam spillway

## **Gilboa Dam Fast-Track Improvements, ACEC NY Diamond Award**

Working with NYCDEP, a Joint Venture of Gannett Fleming and Hazen and Sawyer improved the dam's long-term reliability in record time using three-dimensional structural analysis, high-strength post-tensioned anchors, and the installation of the largest set of temporary siphons in the state.

## **The Catskill Turbidity Control Studies, ACEC NY Diamond Award**

To avoid construction of a filtration plant, NYCDEP has to reduce turbidity in the Schoharie Reservoir. Using advanced modeling and field monitoring, the Joint Venture identified several viable options to reduce turbidity and created the world's first integrated water supply/turbidity inter-basin transfer model – saving money and improving public health.
