

## ORDER FORM FOR SELF STUDY PROGRAM CDS

*For each successfully completed program (determined by a score of 70% or greater on required 10 question quiz) each participant will earn 2.0 PDH's for your New York Engineering and/or Architecture requirements. All courses below have been approved for both Professional Engineering and Professional Architecture credits. NOTE: If you participated in the LIVE webinar, you may **not** earn credits for the self-study archive for that program. New York State Education Law requires that no more than 18 credits can be self study credits.*

### *Courses Available:*

Please Check Selections:

\_\_\_ **COURSE #371SS: GREEN BUILDING SUSTAINABLE DESIGN** - Review an introduction to Green Building concepts, and become more informed on USGBC/LEED involvement. What is "Green Building"? 2 PDH

\_\_\_ **COURSE #389SS: TRANSPORTATION STRUCTURES EXPOSED** - This presentation will cover all types of transportation structures dealing with efficiency, performance and historical use. 2 PDH

\_\_\_ **COURSE # 391SS: MOLD 101** - Explore the introduction into the world of mold. What is mold? Which species of mold are considered "toxic"? 2 PDH

\_\_\_ **COURSE # 406SS: HYDRONIC SYSTEM BASICS+** - Review the basics to the hydronic design process. Become more comfortable making decisions concerning pump choice based on the dynamics of systems such as condenser, hot and chill water distribution. 2 PDH

\_\_\_ **COURSE # 430SS: BUILDING INFORMATION MODELING, CHANGING THE WAY WE THINK ABOUT PROJECT ROLES AND RESPONSIBILITIES** - This program will describe BIM and how it functions. It will discuss its pros and cons in terms of how it affects project roles and responsibilities, how it changes the review process, and legal, licensing or practice implications and restrictions with regard to BIM. 2 PDH

\_\_\_ **COURSE # 501SS: ENERGY RECOVERY-COMMERCIAL AND INSTITUTIONAL COMFORT APPLICATIONS** - This presentation will provide fundamental understanding of Energy Recovery applications. Attendees will be more confident with designs utilizing Energy Recovery. 2 PDH

\_\_\_ **COURSE # 509SS: GREEN BUILDING IN NEW YORK STATE** - This presentation will define green buildings and LEED, the US Green Building Council's rating system. The talk will describe the market for green buildings, explain how engineers can prepare themselves to provide services to this market and discuss technical and financial assistance available from NYSERDA. 2 PDH

\_\_\_ **COURSE #649SS: VENTILATION IN HIGH RISE BUILDINGS-** This presentation will provide an understanding of ASHRAE Standard 62 and NYC ventilation requirements for toilet and kitchen exhaust, NYSERDA incentives available when updating existing ventilation systems and a variety of methods for supplying make up air. The presentation will also include information on the pressure differences in high rise building as a result of Stack Effect and the new technology available for sealing exhaust riser leakage.
