Seismic Design Requirements for Buildings and Building Components

Location: YOUR OFFICE PC

Credit: 1.5 PDH

Costs: \$85 (Member rate) for a single site connection, allows participants in your listening audience (pricing across). Each registration includes 1 Telephone (Audio) and 1 Internet (Visual) connection (one site connection). The call-in line is toll free. Multiple connections at one site require a separate site fee and registration form. Please list all attendees (per site) on this form and the contact person (Site Coordinator*). Attendees may be added on day of Webinar but must register for site connections ahead of time.

Details: To participate you need a speaker phone to hear the audio, and a PC/laptop with Internet connection for the visual. Individual sites will have the opportunity to ask questions to the presenter. **Suggested:** A Site may have 1 site connection, and project images to an audience. Therefore, they pay only one site fee in addition to attendees fees.

PDH Credit: After receiving your site's faxed sign-in/attendance sheet, we will send certificates via e-mail to the Site Coordinator* at your firm.

Cancellations/Changes: If a site fails to connect on day of Webinar, no refunds will be issued. No-show attendees will be charged; however, substitutions are allowed.

Course Description: **Part I** will give attendees an overview and brief introduction to basic seismic forces and terms used in the International Building Code and basic seismic design. **Part II** will describe how to accommodate code required seismic forces into non-structural components such as architectural, electrical, mechanical, and plumbing components as they relate to overall facility design.

Instructor: Joseph S. Kime, P.E.
 Beardsley Design Associates Architecture, Engineering & Landscape Architecture, P.C.
