PDH Webinar # 27

Applying Suspension Bridge Suspender Rope - Replacement Techniques to the Suspenders of a Through Arch Bridge

Date: July 15, 2010

Time: 11:30 AM–12:30 PM EST

Location: YOUR OFFICE PC

Credit: 1 PDH

Costs: $70 (Member rate) for a single site connection, allows participants in your listening audience (pricing across). Each registration includes 1 Telephone (Audio) and 1 Internet (Visual) connection (one site connection). The call-in line is toll free. Multiple connections at one site require a separate site fee and registration form. Please list all attendees (per site) on this form and the contact person (Site Coordinator*). Attendees may be added on day of Webinar but must register for site connections ahead of time.

Details: To participate you need a speaker phone to hear the audio, and a PC/laptop with Internet connection for the visual. Individual sites will have the opportunity to ask questions to the presenter. ***Suggested:*** *A Site may have 1 site connection, and project images to an audience. Therefore, they pay only one site fee in addition to attendees fees.*

PDH Credit: After receiving your site's faxed sign-in/attendance sheet, we will send certificates via e-mail to the Site Coordinator* at your firm.

Cancellations/Changes: If a site fails to connect on day of Webinar, no refunds will be issued. No-show attendees will be charged; however, substitutions are allowed.

Course Description: This presentation discusses the structural lifting system used to replace all 168 suspenders of the Northway Arch Bridges, a pair of steel arch bridges spanning the Mohawk River north of Albany, NY. The Contractor for this project proposed an alternate method for the replacement of the suspenders which utilized a proven technique previously applied to suspension bridges. One of the most significant benefits of the Contractor's method was that it allowed the work to be performed under full traffic. This alternate method saved the bridge owner (NYSDOT) a total of approximately $5 million by eliminating the complex jacking system and traffic control requirements shown on the Contract Plans.

Instructor: **Blaise Blabac, P.E., Senior Engineer**
Modjeski & Master P.C.

To Register Your Site: Fax to 518-452-1710 or mail this form to ACEC New York.
Our partner, Contract Solutions Group (CSG) will be managing the technology portion of the seminar and will be confirming your registration by email. When you receive the confirmation email, we ask that you reply or return receipt so CSG is assured you'll successfully receive the important *Connection Instructions* email sent 2-days before the program date, which will include connection instructions for the web platform, dial-in number for the audio and a link for downloading the PowerPoint Handout and other program materials. If your firm filters incoming email, please add contractsolutionsgroup.com to your list of approved senders.
