

American Council of Engineering Companies of New York

Presents

Seismic Design Requirements for Buildings and Building Components, (1.5 PDH Seminar)
Doing Business with New York State Office of General Services

Wednesday, July 21, 2010
ACEC New York, 6 Airline Drive, Albany, NY

PDH Program Beardsley Design Associates will offer a 1.5 pdh course entitled "Seismic Design Requirements for Buildings and Building Components". Part I will give attendees an overview and brief introduction to basic seismic forces and terms used in the International Building Code and basic seismic design. Part II will describe how to accommodate code required seismic forces into non-structural components such as architectural, electrical, mechanical, and plumbing components as they relate to overall facility design.

Doing Business with OGS ACEC New York has partnered with New York State Office of General Services to offer a program on doing business with the agency. The session will consist of an overview of the agency and the do's and don'ts of doing business with OGS. This session is intended to be interactive. Attendees are encouraged to bring questions. The session will be presented by James Davies, AIA, Deputy Commissioner, Design and Construction, and Bruce Trobridge, P.E., Director D&C Consultant Procurement.
